OBJECTIVE

Passionate Computer Science undergraduate with strong foundations in Java, backend development, data structures, and database management. Skilled in building scalable applications using Spring Boot, REST APIs, and modern web technologies. Seeking an opportunity to contribute, learn, and grow as a software developer in a challenging and collaborative environment.

EXPERIENCE

Full Stack Developer Intern

Seventh Ray Consulting & Technology Pvt. Ltd.

June 2026 – September 2026

- Contributing to the development of an enterprise Contract Management System used to streamline contract lifecycle management through a modern full-stack architecture.
- Developing reusable React.js components and scalable frontend modules using Material UI.
- Collaborating with the development team on feature design, API integration, and application architecture.
- Developing and integrating RESTful APIs using Spring Boot to support contract management and business workflows.
- Designing and maintaining PostgreSQL database schemas, entities, and relationships for scalable data management.

SKILLS

Languages:	Java, C, C++, SQL
Web Technologies:	HTML, CSS, JSP, Servlets
Frameworks & Tools:	Spring Boot, JDBC, Maven, Git, AWS
Databases:	MySQL, MongoDB
Concepts:	DBMS, OOP, Data Structures & Algorithms

PROJECTS

Journal Application — Full Stack Spring Boot & ReactJS Application ([LIVE](#))

[GitHub](#)

- Developed a secure backend using JWT and Google OAuth2 authentication
- Built modular REST APIs with DTO validation and role-based access control
- Integrated Gmail SMTP and WeatherStack API for automation and real-time weather updates
- Developed and integrated a responsive ReactJS frontend with the backend system

Tech Used: Spring Boot, ReactJS, MongoDB, JWT, Google OAuth, Maven, Render

FitZip — AI-Powered Fitness Microservices Application

[GitHub](#)

- Designed and developed a microservices-based fitness platform using Spring Boot and Spring Cloud
- Enabled asynchronous processing using Kafka for activity tracking and AI recommendations
- Secured the system with OAuth2 and Keycloak, integrating centralized authentication via API Gateway
- Built a responsive ReactJS dashboard for activity tracking and AI recommendations
- Utilized PostgreSQL and MongoDB for efficient data storage across services

Tech Used: Spring Boot, Kafka, Keycloak, OAuth2, ReactJS, PostgreSQL, MongoDB

TECHNICAL ACHIEVEMENTS

- Selected as a National Finalist in Smart India Hackathon 2025
- Secured Top 1% rank in NPTEL DBMS Certification (IIT Kharagpur)
- Completed AWS Academy Cloud Foundations (Amazon Web Services)
- Solved over 200+ DSA problems across LeetCode and HackerRank
- Earned 5 OCI 2025 certifications, showcasing skills in AI, GenAI, ML, Data Science, and Cloud Architecture

EDUCATION

B.Tech in Computer Science Engineering

IPS Academy, Institute of Engineering & Science, Indore

Aug 2023 – Apr 2027

CGPA: **9.1**
